Here are some other ideas of jobs that would help AAUW NC:

Public relations [Communications]

There's lots happening at AAUW, and we need help to ensure this gets out to the NC media.

Graphic designer [Communications]

AAUW NC has occasional need for graphic design for brochures, meeting logos, etc. In particular we're looking for new designs that we can use on "merchandise" (e.g. T-shirts, coffee mugs). We can't afford to pay you, but we'd certainly give you public credit and sing your praises!

International affairs champion [Advocacy]

The way AAUW looks at international affairs is apt to undergo a great deal of change. We need someone to track those changes and help the branches work on programming/projects that bring the viewpoints of the women of the world.

Official Photographers [Communications]

Have you ever tried to take pictures at your own party? You know it's hard. We're looking for a few people willing to take snapshots at meetings and other events so we can give the folks who can't attend the flavor of the meetings and let them put faces with the names. Significant others who tag along to meetings are welcome to help here! Again, we'll give you public credit!

Booth Babes [Membership/Leadership Development]

We'll be looking for venues to display AAUW information across the state - to help the branches with the problem that "no one has ever heard of us"... But that will mean having a few folks with an AAUW stash ready to go and set up with what might be short notice. If you've pulled a display together for your branch, consider joining this group to support the state efforts.

Liaisons to other organizations [Advocacy]

We maintain membership in a few public policy oriented coalitions and can always use more people to maintain connections to those and summarize the key issues for the large majority of members who don't keep close tabs on these important ideas. If you're a leader in another organization allied with AAUW's goals, also consider reporting back to us about their good ideas!

Database administrator [Administration]

We in NC maintain a directory of branch/state officers that we publish on the web a few times a year (in the members' section). This is populated with information from the Association (no we don't retype all that!), but there are ongoing updates during the year.

Mailing list maven [Communications]

Keep up with the subscription lists as people's e-mail addresses change. The lists are administered through a web-based tool. Training is provided - learn a new skill that you might apply to other organizations.

Ombudsman [Administration]

Do you have a good understanding of "who does what" and a desire to help folks get answers to their AAUW questions? We're looking for one or two people to field questions from the branches and help resolve problems they may face.

Legislative reporter [Advocacy]

What's happening in the NC Legislature that affects AAUW issues, education in particular? Do you have insights that you can share with the group? Would you like to work on an NC update?

Contact a team lead or Nancy to sign up – or if you'd like to contribute in some other way!
