To: board@aauwnc.org, AAUW NC Leadership &lt;aauwnc-leaders@googlegroups.com&gt;

Hello Board members,

Since I cannot attend in person next Friday, I am sharing my materials ahead of the meeting. The attached pdf has a chart of information to get started on the articles I plan to add to the website and social media platforms each month. This list is very flexible and should expand to add events as we learn better how to communicate about STEM events in our state.

I would like to add events from the branches in North Carolina as they are announced on social media, but I feel it would be better to share those from the branch's pages/accounts if possible to keep the right contacts for those events. Otherwise I will be contacting the people communicating to get a similar list of information so that repeating events will be faster to construct.

Please let me know what you think.

Christi
